location selection , 10-30 years old vines on loess soil, vineyards at 280 – 350 m above sea level

ABOUT THE WINE

no mash time, fermentation and storage in stainless steel tank, carbonated

THE WINEYEAR 2018

The heatwave that set in shortly after the shoot in April and May resulted in one of the earliest flowering of the vines since recording. The vine bloom was completed in May, which explains the enormous vegetation advantage of two to three weeks compared to a normal year.

Through biological management, we invest in living soils. These can store the water longer, so that our vines have weathered the dry periods stress-free.

Sensitive manual work when defoliation was necessary. The vintage brings characterful wines with layer typicality.
